

Section 10-201 ASN-A All Saints Neighborhood Infill/Low Intensity District.

1. District Intent	PERMITTED USES	
	2. Principal Uses	3. Special Exceptions and Accessory Uses
<p>The ASN-A, Infill/Low Intensity District is intended to be located in areas designated downtown on the future land use map of the comprehensive plan and generally comprises the eastern half of the All Saints district, with specific boundaries as depicted on the zoning atlas downtown area map series.</p> <p>This area was historically characterized by a predominance of residential-scale, wood-frame structures of a shared vernacular, in a pattern of small lots, in a grid of narrow, tree-shaded streets. These features exemplify and preserve the historic residential character and scales of the area.</p> <p>The purpose of the ASN-A, Infill/Low Intensity District is to recognize the significance of these historical characteristics by encouraging restoration and adaptive reuse of the existing structures for residential and complementary nonresidential uses, while providing incentives for revitalization through infill development compatible with the area’s historical character and scale. This district is intended to have a low-intensity, pedestrian, residential street character, although non-residential uses are permitted. Nonresidential uses shall be compatible with the surrounding residential structures. Compatibility with the predominant development pattern does not limit infill development to single family homes. Compatibility with the predominant development pattern does not preclude attached buildings. Individual buildings are encouraged strongly for St. Francis Street close to the intersection of St. Francis Street and Boulevard Street, around All Saints Park.</p> <p>The residential density shall not be less than 8 dwelling units per acre and shall not exceed 50 dwelling units per gross acre.</p> <p>Development Standards for this zoning district are established with the Downtown Overlay Regulating Plan map series and applicable sections of Division 4.</p>	<ol style="list-style-type: none"> 1.
